

Experiment 5 – Inter Process Communication (IPC)

EXPERIMENT 5: Inter Process Communication (IPC)

A terminal window with a dark blue background and white text. It shows the execution of a C program and a shell script for Inter-Process Communication (IPC). The window has three colored window control buttons (red, yellow, green) in the top-left corner.

```
(kali㉿kali)-[~]  
└─$ gcc ipc.c -o ipc  
(kali㉿kali)-[~]  
└─$ ./ipc  
Message received from child: Hello from Child Process  
  
(kali㉿kali)-[~]  
└─$ chmod +x ipc.sh  
(kali㉿kali)-[~]  
└─$ ./ipc.sh  
Parent Received: Message from Child Process
```
